

Selling is simple with Moose Vinyl.

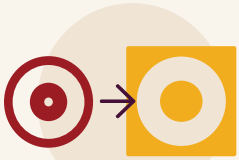

TIME TO MAKE SOMEONES DAY

Once your record has sold, Moose Vinyl will mail you a Moose Mailer. This cardboard mailer kit will have everything you need to ship your record to its new home.

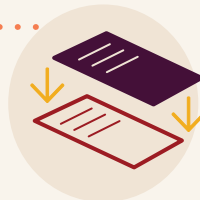

BOX UP YOUR ORDER

When you receive your Moose Mailer, cut **carefully** along the adhesive strips and keep the box in good condition (**it will be used again!**)

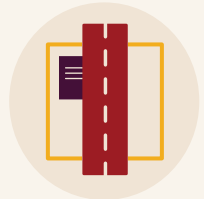

ADD A LAYER OF PROTECTION

Fit your vinyl record into the protective sleeve and place it in the box. If your record does not fit in the protective sleeve, leave it in the box for the buyer!

APPLY THE NEW LABEL

Inside your Moose Mailer, you'll find a shipping label for the buyer. Place the shipping label **over-top** of the existing label on the **outside** of the box.

SEAL THE DEAL

Once your sold record is in the box and the label is affixed, seal the box with the **provided adhesive**. Place the new adhesive over-top of the original tape.

DROP OFF THE GOODS

Drop the record off at your nearest **post office (USPS)**. Stay tuned to your in-app notifications for delivery updates. **Remember to get a drop-off receipt!**
